

Relationships, Safety, Health and Economic Education at Bartons

What does it look like at Bartons?

Bartons Primary School is a nurturing learning environment in which each child is encouraged to develop to their full potential and where their achievements and successes are celebrated and rewarded.

Our core values and skills develop independence, respect and responsibility communication skills, creativity and happiness and in a caring atmosphere. The teaching and learning of RSHE supports and upholds these values.

Working With Others (WVO) is promoted throughout the school which leads to trust, good communication skills and the ability to problem solve.

Why is it important?

It is crucial that all students have an understanding of the ever changing world in which we live, develop the skills necessary to take an active role in their community and manage their life effectively.

Through RSHE, we believe we can enhance children's education and help them become caring, respectful and confident members of Team Bartons.

What do we learn?

The RSHE Education programme is reviewed regularly to ensure provision is relevant. Our curriculum is split into 5 core themes:

- Relationships, and Sex Education,
- Digital Media and Literacy,
- Emotional Health and Wellbeing,
- Physical Health and Wellbeing and
- Economic Awareness.

RSHE deals with the diverse beliefs, values and attitudes that individuals and societies hold. It helps pupils to develop their understanding of the world, their ability to communicate their feelings, the skills to maintain meaningful relationships and the knowledge needed in order to be safe and healthy.

RSHE also helps children to acquire British values and attitudes which are necessary if they are to make sense of their experiences within school and life itself, value themselves, respect others, appreciate differences and diversity and feel confident and informed as a British citizen.

As a school, we aim to enrich the lives of our children by providing them with the skills and opportunities to apply their learning within and beyond the curriculum. This is achieved through lessons, guest speakers, visits and encouraging full involvement in school life including sports teams, music club, drama productions, the house system, school council and fund raising.
